The Solar War A.G. Riddle

*** Now a *Wall Street Journal* bestseller! ***

We thought the war was over.

We were wrong.

They decimated Earth during the Long Winter.

Now the grid has returned, and they won't stop until the human race is extinct.

On a ruined world, humanity's last survivors fight against impossible odds. In their darkest hour, they discover a new hope for survival. But it comes at an unthinkable price, with consequences that will change everything.

Selected Praise For A.G. Riddle

“This is apocalyptic sci-fi at its best.”

— **Daily Mail** on *The Solar War*

“...reads like a superior collaboration between Dan Brown and Michael Crichton.”

— **The Guardian** on *Pandemic*

“I finished the book fast because I just couldn't wait...”

— **WIRED GeekDad** on *Departure*

“Riddle... keep(s) the focus on his characters... rather than the technological marvels”

—**Publisher's Weekly** on *Departure*

“Well-constructed and tightly-wound as a fine Swiss watch—*DEPARTURE* has non-stop action, an engaging plot and, of course, wheels within wheels.”

—**Diana Gabaldon**, #1 *New York Times* bestselling author of *Outlander*

An Extended Look at *The Solar War*

After the Long Winter, Emma Matthews and James Sinclair hoped life would get back to normal. They've settled down in Camp Seven and welcomed their first child, a daughter. And they have waited and watched the sky for any signs of the grid's return.

When NASA discovers that several asteroids have broken from the Kuiper Belt and are headed for Earth, James instantly realizes the truth: the grid is back. And this battle will be one to the very end.

As he and his team prepare for humanity's last stand in space and on the ground, Emma makes a discovery closer to home, one that will change life for her and James once again.

With war raging around them, Emma and James fight to keep their family alive. In the cold darkness, humanity splinters. New alliances emerge. At every turn, Emma and James face new dangers—and question whom to trust.

Just when it seems that all hope is lost, James uncovers what may be the key to humanity's survival. But it comes with enormous risks. To implement his plan, he and Emma will have to survive the grid and another, even more deadly enemy. One thing is certain: their gambit will change the future of the human race forever.

Page turning

Great sequel to Winter World. Survival is once again a battle. Families standing together for one common goal, life. Is the decision they make to go to another planet as earth is dying day by day, the beginning of a new world or the end of our civilization. I'm reading the last book to find out!

Kate says

While I loved The Long Winter, the Solar War just didn't do it for me. I've had this before with AG Riddle. I love the first books in his series and then fail to connect with the follow-ups. Abandoned at 44%.

Johnny Le Bon says

I couldn't deal with the stupid genius any more. Nor his wife. It's a shame because I loved the premise, but the two main characters were too much too handle. Thank goodness it was Kindle Unlimited!
